AHMED YAQOUB ALSALEH

SOFTWARE ENGINEER

0501108382 | alsalehahmed02@gmail.com | www.linkedin.com/in/ahmed-y-alsaleh/ | github.com/AhmedY29

OBJECTIVE

Innovative Software Engineer specializing in web development, with hands-on experience building scalable, multilingual applications using Next.js, React.js, Node.js, MongoDB, and Supabase. Proficient in implementing internationalization with i18next, and highly skilled in problem-solving, effective communication, and team collaboration. Experienced in translating Figma designs into responsive web applications. Eager to contribute technical expertise and a collaborative mindset to a dynamic team, delivering high-performance, user-focused web solutions aligned with business goals.

EXPERIENCE

Full-Stack JavaScript Developer – Tuwaiq Bootcamp   Apr 2025 – July 2025
- Acquired in-depth knowledge of JavaScript, React, and Express for building modern web applications.
- Developed advanced websites and apps with a focus on user experience (UX) and industry best practices.

IT Specialist – Coop Training - Labor office   Jan 2022 – May 2022
- Automated routine office tasks using Microsoft Office tools (Excel, Word), reducing manual work.
- Developed a Windows Forms application to streamline office tasks, using C#.

EDUCATION

Bachelor of Applied Programming and Web Development Engineering
Buraidah College of Technology   **GPA 4.74**   2022 - 2025

Diploma of Computer Programming
Al-Ahsa College of Technology   **GPA 4.6**   2019 - 2022

CERTIFICATES

- **Udemy**: React js - Hooks - Redux - State - Router ude.my/UC-012deb23-910b-4902-a2f7-f8b732e43435

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, Dart, C#
Frontend: React.js, Next.js, HTML, CSS, Tailwind, Shadcn, MUI, Responsive Design, Redux, Zustand , I18Next
Backend: Node.js, Express.js, Supabase, RESTful APIs, JWT (JSON Web Tokens), Bcrypt
Databases: MongoDB(NoSql), MySQL, Postgres, Prisma(ORM)
Tools : Git, GitHub, Postman, Agile Methodology, Scrum

PROJECTS

Bus Line:

Technologies: React.js, Socket.IO, Express.js, MongoDB, Node.js, Mapbox, JWT, Tailwind CSS

A smart and secure solution for school transportation, especially designed for students facing difficulties accessing schools or universities. The platform offers real-time tracking of buses and a reliable communication system between drivers and students to ensure safe and efficient transport.   https://bus-line.onrender.com/

Portfolio:

Technologies: React.js, HTML, CSS, GSAP

Some Projects:
 Maskn - Real estate platform (MERN, leaflet maps)
 Modar - Project management system(React, Redux, i18n)
Travel Planner - AI-powered trip itinerary (Gemini API, React, GSAP) and more…
